What we'll cover

We'll look at a selection of helpful settings on:

- Shows & Events
- Ticket prices
- Products

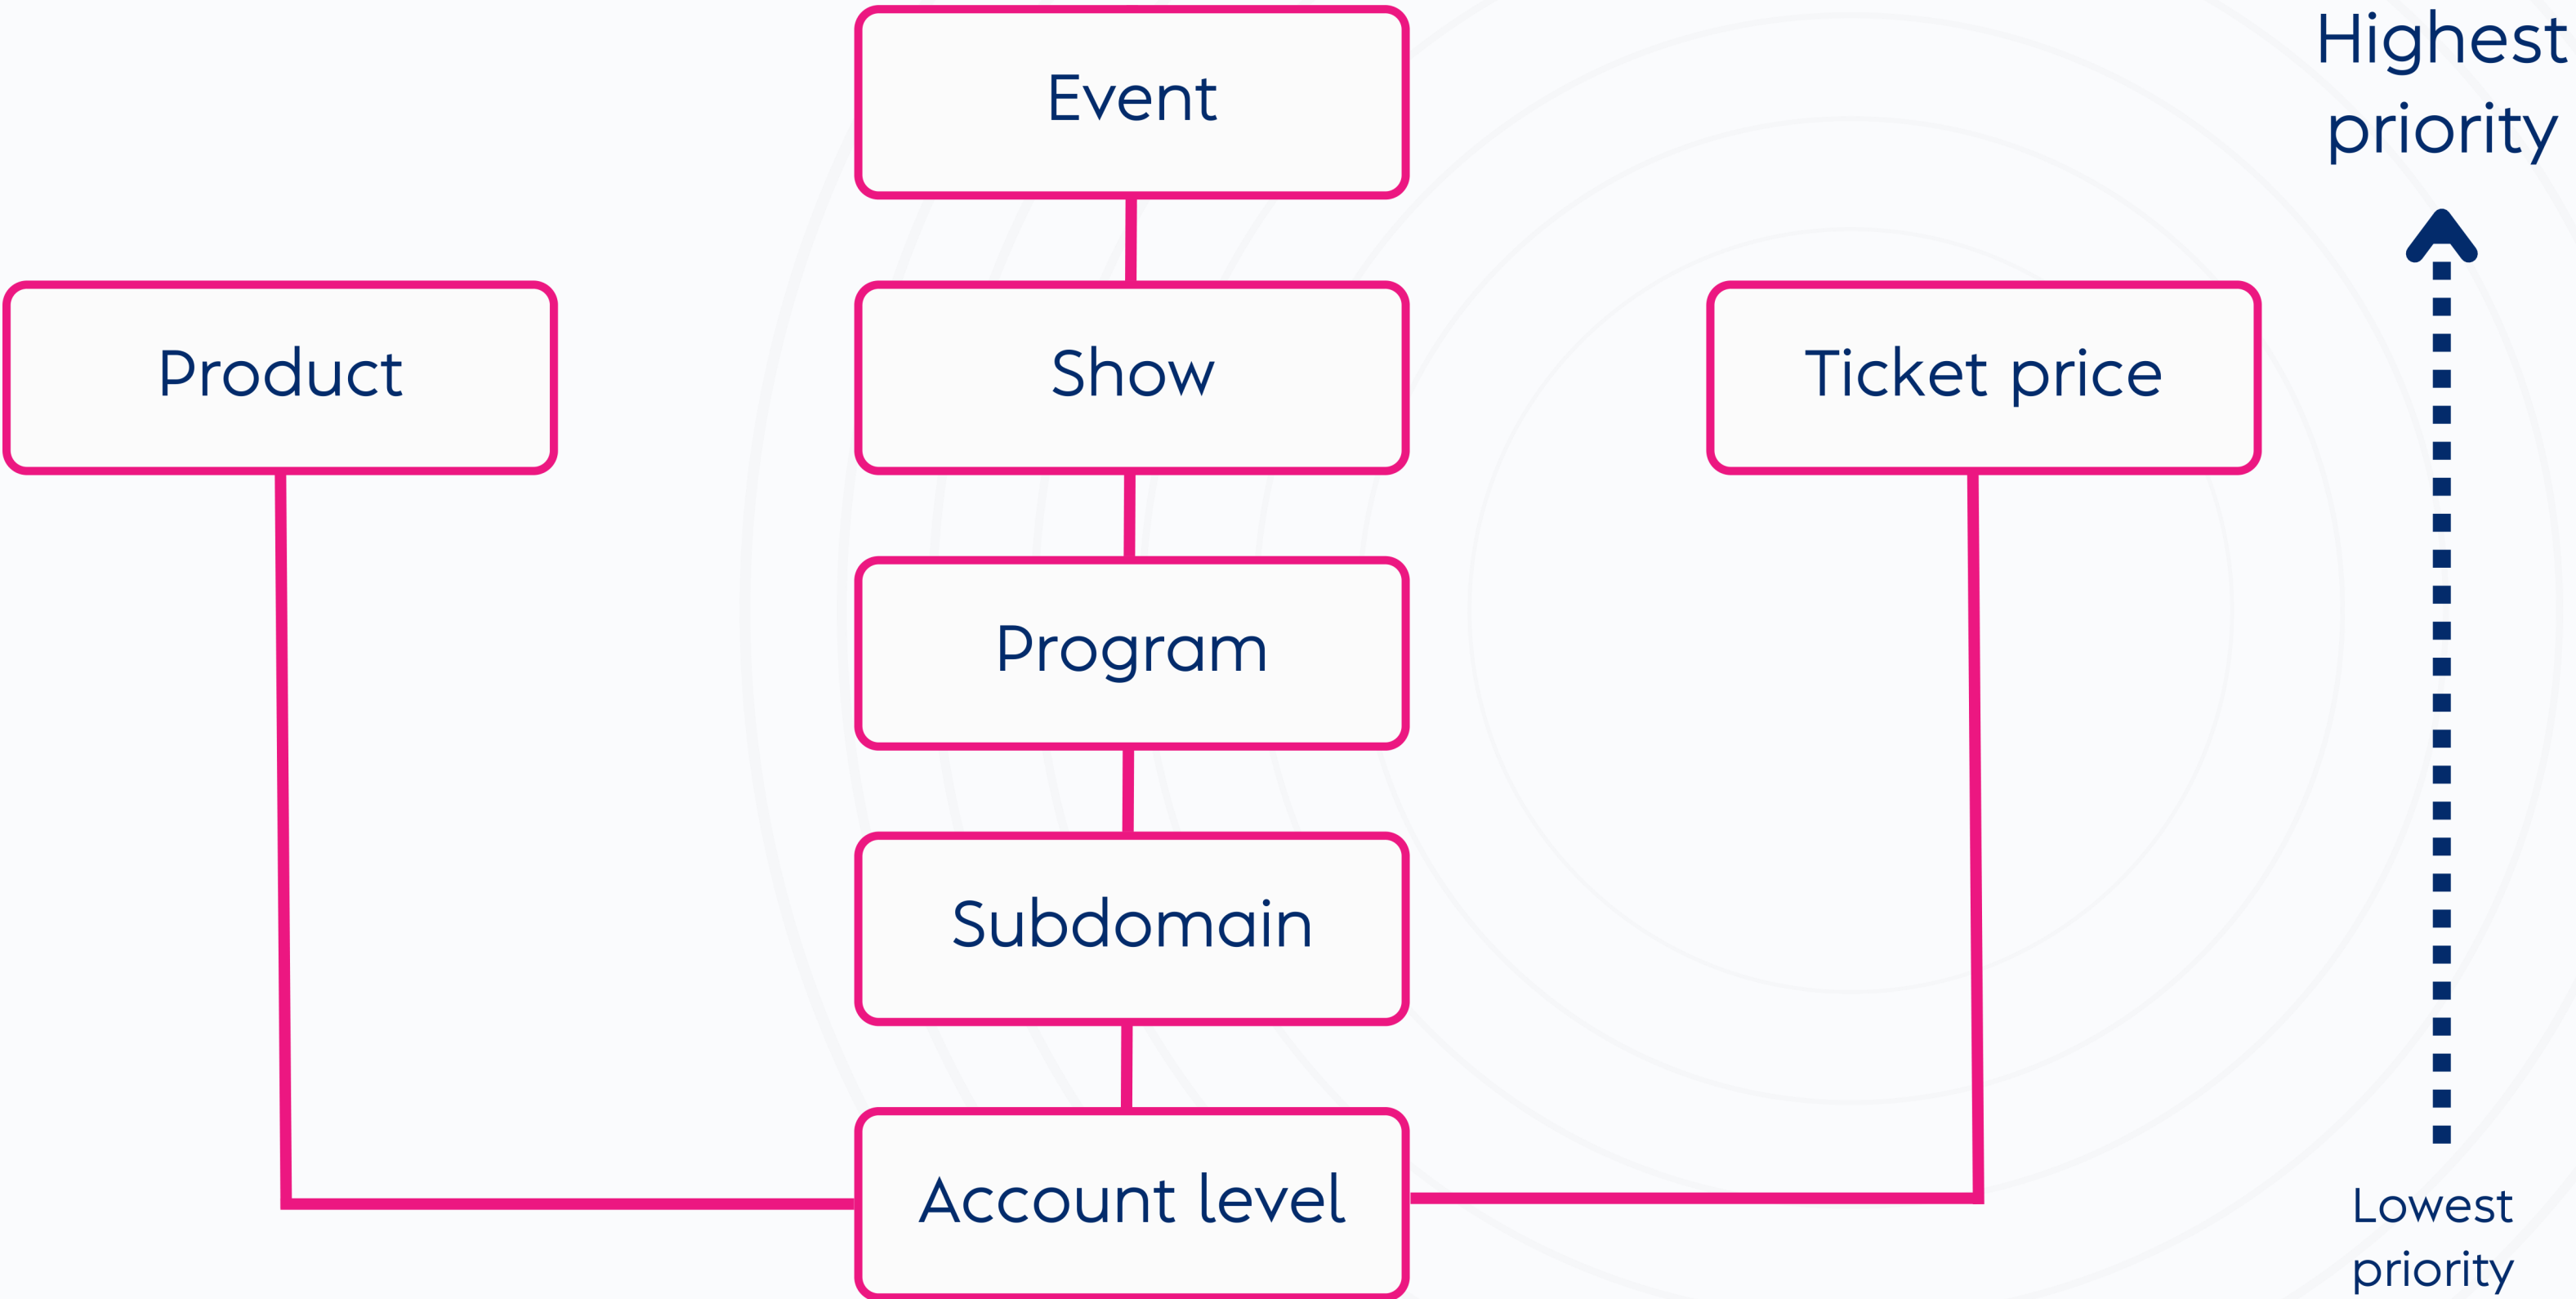

And we'll finish up the session with a Q&A

LET'S DO THIS!

Settings structure

Email notes

Recap

Email note

Add show/product/ticket information to be included in the checkout mailer

Max tickets per event

Limit the tickets purchased in one transaction for an event online

Event attribute

On shows with multiple events, add short text to the event date/time on the show page

Instructions

Add event notes for Box Office staff to see

Onsale time

Turn "Enabled Booking" and "List Online" toggles on automatically for an event

Minimum tickets

Set how many tickets must be selected before a price is available online (for cheap group tickets)

Price note

Add information to be included on ticket template
